How SSHRC Awards Its Grants

This publication lists new awards granted by the Social Sciences and Humanities Research Council during the 2000-2001 fiscal year.

SSHRC grants are awarded through an independent and highly competitive adjudication process in which committees of scholarly experts evaluate research proposals and recommend which projects Council should fund. The peer review process forms the cornerstone of a fair and effective system for ensuring that only the best research proposals receive SSHRC funding.

Each year, SSHRC program officers approach close to 8,000 researchers from Canada and other countries around the world to provide written evaluations of individual grant proposals. Their assessments are then submitted to the selection committees to assist them in determining which proposals merit funding.

SSHRC adjudicators and assessors are active researchers who have demonstrated both expertise in their own discipline or area of specialization and solid knowledge of research activity as a whole.

This past year, 221 scholars sat on 29 research grant and strategic research grant selection committees to evaluate applications submitted in the annual national competitions for SSHRC funding.

This year's selection committees reviewed a total of 1,914 research grant and strategic research grant applications (not including letters of intent) from researchers at Canadian universities. Of those, slightly more than four out of ten (814) were awarded funding. As in previous years, owing to budget constraints, SSHRC was unable to support a number of meritorious projects recommended by the selection committees.

Applications for SSHRC doctoral and postdoctoral fellowships are similarly adjudicated through annual national competitions so that only the most promising and accomplished graduate students receive Council support.

Au coeur du processus d'octroi des subventions du CRSH

La présente publication énumère les nouvelles subventions accordées par le Conseil de recherches en sciences humaines au cours de l'année financière 2000-2001.

Le CRSH attribue ses subventions selon un processus de sélection indépendant et très concurrentiel, faisant appel à des comités d'experts qui évaluent les propositions de recherche et recommandent les projets à financer. L'examen par les pairs est à la base d'un système juste et efficace grâce auquel seules les meilleures propositions reçoivent un appui financier du CRSH.

Chaque année, les agents des programmes du CRSH recourent à près de 8 000 chercheurs du Canada et de l'étranger pour rédiger des évaluations de chacune des demandes de subventions présentées. Leurs évaluations sont soumises aux comités de sélection pour les aider à décider quelles demandes méritent d'être subventionnées.

Les évaluateurs et les membres des comités de sélection du CRSH sont des chercheurs actifs qui ont fait leurs preuves dans leur discipline ou domaine et qui sont au fait de la recherche en général.

Cette année, 221 chercheurs ont fait partie de l'un ou l'autre des 29 comités chargés d'évaluer les demandes de subventions ordinaires et stratégiques présentées aux concours annuels nationaux du CRSH.

Les comités de sélection ont examiné un total de 1 914 demandes de subventions de recherche et de subventions de recherche stratégique (sans compter les lettres d'intention) provenant de chercheurs d'universités canadiennes. Parmi celles-ci, un peu plus de quatre sur dix (814) ont obtenu un appui financier. Comme dans les années passées, à cause de contraintes budgétaires, le CRSH a été dans l'impossibilité d'appuyer de nombreux projets méritoires qui ont été recommandés par les comités de sélection.

Les demandes de bourses de doctorat et postdoctorales du CRSH sont également évaluées dans le cadre de concours annuels nationaux, de sorte que seulement les étudiants les plus prometteurs et les plus doués reçoivent l'appui du Conseil.

This year 2,604 Canadian graduates applied for a SSHRC doctoral fellowship. Of those, slightly more than one in five (591) were granted an award.

A total of 446 applications for postdoctoral fellowships were reviewed in the 2000-2001 competition. Of these, one in four (112) were granted a postdoctoral fellowship—a prestigious award which assists Canada's newest scholars at the beginning of their research careers.

Cette année, 2 604 étudiants canadiens de troisième cycle ont fait une demande de bourse de doctorat au CRSH. Parmi ceux-ci, un peu plus d'un étudiant sur cinq (591) a obtenu une bourse.

Un total de 446 demandes de bourses postdoctorales ont été évaluées dans le cadre du concours de 2000-2001, parmi lesquelles un candidat sur quatre (112) a obtenu une bourse postdoctorale — une distinction prestigieuse pour les nouveaux chercheurs du Canada qui sont au début de leur carrière.

Standard Research Grants (by discipline)
Major Collaborative Research Initiatives (MCRI)
Community-University Research Alliances (CURA)
Inter Council Grant/Consortiums

Subventions ordinaires de recherche (par discipline)
Grands travaux de recherche concertée (GTRC)
Alliances de recherche universités-communautés (ARUC)
Subvention inter-conseils/Consortium

Standard Research Grants (by discipline)

The list below provides the name of the principal investigator (and co-investigator(s)) to whom the research grant has been awarded, the name of the university or research institution where he or she works, the title of the research program for which the grant was awarded, the duration of the grant (number of years shown in brackets), and the total amount awarded for the entire grant period.

Subventions ordinaires de recherche (par discipline)

La liste ci-dessous indique le nom du chercheur principal (ou des co-chercheurs) qui a obtenu la subvention de recherche, le nom de l'université ou de l'établissement de recherche dans lequel s'effectue la recherche, le titre du programme de recherche qui fait l'objet de cette subvention, la durée de la subvention (le nombre d'années est indiqué entre parenthèses) et la somme totale accordée pour la période couverte par la subvention.

Letters of Intent/Lettres d'intention
Letter of Intent (LOI) grants are offered to applicants successful at the first stage of a two-stage peer-reviewed competition. The LOI grant provides the successful applicant with funding for research and related activities required to develop a full proposal for the subsequent stage of peer review.

The Letter of Intent (LOI) stage of the Community Alliances for Health Research program was funded by SSHRC and the full proposal stage was funded by the Canadian Institutes of Health Research (CIHR). The LOI recipients are listed below. For a list of the full proposal grant recipients, please contact CIHR.

Des subventions de développement sont offertes aux candidats dont la lettre d'intention a été retenue à la première étape d'un concours à deux étapes évalué par les pairs. Cette subvention finance la recherche et les activités liées à la recherche du candidat qui sont nécessaires à l'élaboration d'une demande détaillée en vue de la deuxième étape du concours.

Les lettres d'intention retenues pour le programme des Alliances communautaires en recherche en santé (ACRS) ont été subventionnées par le CRSH tandis que les demandes détaillées l'ont été par les Instituts de recherche en santé du Canada (IRSC). Vous trouverez ci-dessous la liste des candidats qui ont été choisis à l'étape de la lettre d'intention. Veuillez communiquer avec les IRSC pour obtenir la liste des candidats dont la demande détaillée a été sélectionnée.

Letters of Intent/Lettres d'intention

Letter of Intent (LOI) grants are offered to applicants successful at the first stage of a two-stage peer-reviewed competition. The LOI grant provides the successful applicant with funding for research and related activities required to develop a full proposal for the subsequent stage of peer review.

Des subventions de développement sont offertes aux candidats dont la lettre d'intention a été retenue à la première étape d'un concours à deux étapes évalué par les pairs. Cette subvention finance la recherche et les activités liées à la recherche du candidat qui sont nécessaires à l'élaboration d'une demande détaillée en vue de la deuxième étape du concours.

SPARK Program

SSHRC introduced the Students Promoting Awareness of Research Knowledge (SPARK) program in 2000-2001 as one-year pilot program. Students from nine universities gained professional, paid writing experience through the SPARK program. Mentored by university staff members, these students profiled SSHRC-funded research and researchers in their university publications. Below are the names of the universities and mentors who took park in the SPARK program and the total amount awarded to each university.

Carleton Univesity, Heather Brown
Students Promoting Awareness of Research Knowledge (SPARK)
(1) 1,000

Dalhousie University, Catherine Young
Students Promoting Awareness of Research Knowledge (SPARK)

Le Programme ÉCLATS

Le CRSH a lancé le programme ÉCLATS (Étudiants communiquant les liens et les avancés technologiques et scientifiques) en 2000-2001 à titre de programme pilote. Grâce à la rémunération offerte dans le cadre du programme ' ECLATS, des étudiants de neuf université ont acquis une expérience professionnelle en rédaction journalistique. Sous la direction du personnel des universités, ces étudiants ont préparé pour les journaux et revues de leur université respective des articles sur des recherches subventionnées par le CRSH. La liste ci-dessous indique le nom des universités et des mentors qui ont pris part au programme ÉCLATS et le montant total accordé aux universités.

The University of Regina, Janet Campbell
